DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the image" in lines 4, 6 and 9 and 10. It is not clear that the image is original image or some other image. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "disordering the image centering the disordering operation around the fixation point" in lines 4-5. Paragraphs [0057] – [0058] describe about disordering, but the examiner is not clear that what "disordering the image centering the disordering operation around the fixation point" means.
